CHICAGO GRAIN MARKET. Chicago, March 4 .- Increased confithee in values showed itself in the market today largely on account of crop conditions and export business, but also conditions and expert business, but also owing more or less to optimism based on President Harding's inaugural speech. The market closed firm at 1 1-2 to 3c het higher with March \$1.73 to 1.73 1-4 and May \$1.63 1-2 to 1.63 3-4. Corn gained 3-3 to 5-8@3-4, and oats 1-2 to 5-3c. In provisions there was a getback of 7 to 15c.

At first the wheat market appeared to be in a hesitating mood, with some traders inclined to the selling side as a result of the failure of the emergency tariff bill. For the most part, however, the plt regarded the tariff situation as having been discounted in advance. Selling was not pressed, and with the receipt of green bug advices backed with buying orders the market soon turned upward, especially as exporters seemed to be renewing their activity at Kansas City. Moderate further gains were scored after the substance of Prosident Harding's address became known. Reactions which took place later were apparently of a Bush 98 102 112—312 took place later were apparently of a transient sort due to profit taking. Corn and oats sympathized with wheat strength.
